PRESS RELEASE

Letter of Award for Provision of Cased hole e-line services

Kuala Lumpur, 17 February 2015 – Uzma Berhad (“UZMA”) is pleased to announce that its wholly owned subsidiary, Uzma Engineering Sdn Bhd (“UESB”) has been recently awarded a contract by PETRONAS Carigali Sdn Bhd (PCSB), for the provision of Cased Hole Electric-line Logging Perforation and other services (“Contract”).

The 2 year contract is effective from 28 January 2015 to 27 January 2017 with an extension option of 1 year from 28 January 2017 to 27 January 2018. The value of the Contact is estimated at RM59 million over the primary 2 year contract period.

This e-line contract award marks a further milestone for the UZMA group’s Wireline and Well Services division to be able to extend its scope of e-line service offerings to Petronas Carigali’s production wells across Malaysia.

“This recent award for cased hole e-line services to UZMA is testament of the forward strides made by our E-line and slickline team. Although we are a relatively newcomer to the well services segment compared to the more established international service companies, we are grateful to Petronas for giving us the opportunities to demonstrate our capabilities. I am particularly proud that UZMA is the first Malaysian service company to be awarded this contract for cased hole e-line segment which were previously exclusively executed by international O&G services firms” said Dato’ Kamarul Redzuan, Chief Executive Officer of Uzma Berhad
